## Brand Profile

Direct Source Australia manufacture a wide range of Enviro style chemical products and biodegradable spill control products. Consulting with customers and industry they ensure quality products are suited to mining and industrial environments.

Direct Source Australia is a wholesaler and exporter of industrial supply. A single source supplier to mining, industrial, civil construction, marine companies and contractors. Throughout Australia and internationally they offer customers a large range of quality products backed with excellent service and over 30 years experience. By working closely with manufacturers and distributors, quality products are offered at the best possible price.

Enviro Gold HydroCarbon and Hazchem Spill Response Kits are perfect for all hazardous chemicals, fuel, oil, petroleum, cooking oils and other messy liquid spills. All absorbents in the Enviro Gold HydroCarbon Spill Response Kits are environmentally friendly and of the highest quality. With Enviro Gold HydroCarbon and Hazchem Spill Response Kits simply use the contents to contain the spill; then use the packaging to remove the contaminated absorbent. All contents can then be restocked.

## HydroCarbon Spill Bins

### 660L 4 Wheeled Bin

- 5 x 10kg Enviro Gold Pourable Bio Absorbent
- 10 x Enviro Gold Absorbent Multiwik Sock 3" x 12'
- 10 x Enviro Gold Absorbent Multiwik Sock 3" x 4'
- 200 x Enviro Gold Absorb-Mat (Medium)
- 1 x Enviro Gold Absorb-Mat Roll Perforated (362mm x 45.7m)
- 20 x Waste Bags
- 20 x Cable Ties
- 4 x Chemical Resistant Gloves
- 1 x 660L 4 Wheeled Bin

660L  
HC660

Further information on product data and MSDS are available on our website

## Workshop HydroCarbon Spill Kits

Enviro Gold HydroCarbon Spill Kits in wheelie bins are ideal for workshops. 240 Litre and 120 Litre wheelie bins can be easily moved closer to the spill to contain and remove quickly.

### 120L Wheelie Bin

- 2 x 10kg Enviro Gold Pourable Bio Absorbent
- 1 x Enviro Gold Absorbent Multiwik Sock 3" x 12'
- 2 x Enviro Gold Absorbent Multiwik Sock 3" x 4'
- 25 x Enviro Gold Absorb-Mat (Medium)
- 4 x Waste Bags
- 4 x Cable Ties
- 1 x Chemical Resistant Gloves
- 1 x 120L Red Wheelie Bin

**120L**  
HC120

### 240L Wheelie Bin

- 3 x 10kg Enviro Gold Pourable Bio Absorbent
- 1 x Enviro Gold Absorbent Multiwik Sock 3" x 12'
- 4 x Enviro Gold Absorbent Multiwik Sock 3" x 4'
- 1 x Enviro Gold Absorbent Multiwik Sock 3" x 8'
- 50 x Enviro Gold Absorb-Mat (Medium)
- 10 x Waste Bags
- 10 x Cable Ties
- 1 x Chemical Resistant Gloves
- 1 x 240L Red Wheelie Bin

**240L**  
HC240

Further information on product data and MSDS are available on our website

## Vehicle HydroCarbon Spill Kits

Enviro Gold Portable Transport HydroCarbon Spill Kits include everything you need to contain a spill when you're on the go. Kits are available in 20L and 40L carry bag sizes and include quality environmentally friendly absorbents. For spill and safety in one bag you can't go past the complete 3 in 1 kit that includes a deluxe handy first aid kit and Pelican Sabre Lite 2000 Safety Torch in a special side pocket for quick access.

### 20L Kits suitable for Light Vehicles

- HC20 - 20L Transport HydroCarbon Spill Kit
- HCFA20 - 20L Transport HydroCarbon Spill Kit with First Aid
- HCFAT20 - 20L Transport HydroCarbon Spill Kit with First Aid and Pelican Torch

### 40L Kit suitable for Heavy Vehicles

- HC40 - 40L Transport HydroCarbon Spill Kit
- HCFA40 - 40L Transport HydroCarbon Spill Kit with First Aid
- HCFAT40 - 40L Transport HydroCarbon Spill Kit with First Aid and Pelican Torch

		Red Carry Bag (Part# HCBAG)	Red Carry Bag with First Aid Side Compartment (Part# HCFABAG)	Enviro Gold Absorb-Mat (Part# EHMM)	Enviro Gold Absorbent Multiwik Sock 3" x 4' (Part# EGAS34)	2.5kg Enviro Gold Pourable Bio Absorbent (Part# EGS42)	Waste Disposal Bags (Part# WB) & Zip Ties (Part# 56404)	Chemical Resistant Gloves (Part# AS362301)	Handy Deluxe First Aid Kit (Part# 856623)	Pelican Sabre Lite 2000 Safety Torch Yellow (Part# 2000CYEL)

## Workshop Hazchem Spill Kits

Enviro Gold Hazchem Spill Kits in wheelie bins are ideal for workshops. 240 Litre and 120 Litre wheelie bins can be easily moved closer to the spill to contain and remove quickly.

### 120L Wheelie Bin

- 2 x 30L Enviro Gold Hazard Absorbent
- 1 x Enviro Gold Chemical Sock 3" x 12'
- 2 x Enviro Gold Chemical Sock 3" x 4'
- 25 x Enviro Gold Chemical Mat
- 4 x Waste Bags
- 4 x Cable Ties
- 1 x Chemical Resistant Gloves
- 1 x 120L Blue Wheelie Bin

**120L**  
HZ120

### 240L Wheelie Bin

- 3 x 30L Enviro Gold Hazard Absorbent
- 2 x Enviro Gold Chemical Sock 3" x 12'
- 4 x Enviro Gold Chemical Sock 3" x 4'
- 50 x Enviro Gold Chemical Mat
- 10 x Waste Bags
- 10 x Cable Ties

# Absorbent Materials

The wide range of Enviro Gold absorbent materials gives the end user multiple options when it comes to selecting the right material for the job. Whether it be for indoor or outdoor use or hydrocarbon, acid base, or oil spills there is a product for every application. All absorbent materials used in the Enviro Gold range are environmentally friendly and proven performers.

## Absorbent Matting

Next Generation of Eco-friendly sorbents. Absorb-Mat is made from a minimum of 70% recycled newsprint and other cellulose or 80% from renewable resource – Cotton for the Oil Only Mats. With better absorbency, you'll have less sorbent material to dispose of. Absorb-Mat sorbents have been tested to be up to 25-50% more absorbent than oil-based polypropylene sorbents so you will use less product to get the job done. Also less expensive than oil-based polypropylene sorbents, it is not impacted by volatile oil prices.

Product Code	Product Description	Pack Size	Absorption Capacity Litres - Per Unit	Absorption Capacity Litres - Total
<b>PADS Absorb-Mat</b>				
EGAMH	Absorb-Mat Heavy Weight Pad, 15" x 19" (381 x 482mm)	Pack/100	1.51 Litres per pad	151 Litres

<b>ROLLS Oil Only Sorbent Mat</b>				
EGAMOORP	Absorb-Mat Oil Only, Perf'd, 14.25" x 150" (362mm x 47.5m)	Roll/1	2.96 Litres per metre	296 Litres
EGAMOORDP	Absorb-Mat Oil Only, Double Perf'd, 28.50" x 150" (724mm x 47.5m)	Roll/1	5.93 Litres per metre	593 Litres

Further information on product data and MSDS are available on our website

## Pourable Absorbent

### Enviro Gold Pourable Bio Absorbent

Enviro Gold Pourable Bio Absorbent is a premium biodegradable absorbent product. Made from combinations of cellulose fibres like cotton, ground nut, stock feeds and fibrous flour, this absorbent has a very fast wicking action, meaning it absorbs oil and fuel spills rapidly leaving little residue behind.

- Highly absorbent, biologically active, biodegradable, environmentally friendly materials
- Rapidly encapsulates hydrocarbons (oils, fuels, grease etc) and many other liquids
- Light weight, easy to apply, simple to use
- Made of all naturally occurring microbes
- Does not contain crystalline silica (classified Group 1 Carcinogenic to humans)
- Ideal for domestic, commercial and industrial applications

**2.5 Kilo Bag**  
EGSA2

**10 Kilo Bag**  
EGSA10

### Enviro Gold Kitty Litter

Premium Kitty Litter made from Natural Diatomite. Retains liquids up to 100% of its own weight. Specially formulated for use as an oil, water and odour absorbent. Simply spread over spill, leave for a while until all liquid has been absorbed. Sweep up and dispose of contaminated spillage according to regulations.

- Premium Grade
- Pollution Free
- Non-Combustible
- Economical
- Reduces Slip Risk
- Recyclable

**35 Litre Bag**  
EGKL35

Further information on product data and MSDS are available on our website

# Absorbent Materials

## Enviro Gold Hazard Absorbent

Enviro Gold Spill Hazard Absorbent is a vermiculite product designed to be used for Hazardous Spills. Vermiculite is a unique mineral which is lightweight, inorganic, incombustible, compressible, highly absorbent and non-reactive.

- Ideal and safe solution for Hazchem spills
- Cost effective
- Non-toxic
- Non-reactive alternative to cellulose and more effective
- Australian made
- Environmentally responsible

**7.5 Litre Bag**  
EGHA7

**30 Litre Bag**  
EGHA30

## Socks

Enviro Gold Multiwik Socks are available in 3 sizes and Enviro Gold Chemical Socks are available in 2 sizes. They can be laid out easily to provide portable bunding to contain and restrict the flow of a spill. Enviro Gold Socks may also be used as an effective barricade around leaky equipment or to prevent liquids from entering storm-water drains.

## HydroCarbon Multiwik Socks

- General purpose Socks for absorption of oil and water (non hazardous) based liquids and drips
- Easy to mould and shape around leaky equipment and machinery

Multiwik Sock 3" x 4' (76mm x 1.2m)  
absorption 3.77 litres per sock  
EGAS34

**Further information on product data and MSDS are available on our website**

# Absorbent Materials

Multiwik Sock 3" x 8' (76mm x 2.44m)  
absorption 7.5 litres per sock  
EGAS38

Multiwik Sock 3" x 12' (76mm x 3.66m)  
absorption 11.2 litres per sock  
EGAS312

## Hazchem Chemical Socks:

- Handles most chemicals
- Tough and versatile
- Flexible, easy to shape and mould
- Non-reactive

Hazchem refers to aggressive chemicals like acids, caustics and corrosive liquids.

Chemical Sock 3" x 4' (76mm x 1.22m)  
absorption 3.75 litres per sock  
EGAS34C

Chemical Sock 3" x 12' (76mm x 3.66m)  
absorption 11.25 litres per sock  
EGAS312C

Further information on product data and MSDS are available on our website

# Absorbent Materials

## Oil Only Sock:

- Floats on water
- Absorbs oil, grease, transmission fluid, coolants and other petroleum based liquids
- Does not absorb water (hydrophobic)
- Up to 50% more absorbency than polypropylene
- Spunbond coverstock adds extra tough durability

Specially designed to absorb oils, fuels and other non-aqueous (non water) soluble liquids.

Oil Only Sock 3" x 4' (76mm x 1.22m)  
absorption 3.75 litres per sock  
EGAS3400

## Storage & Bunding

There is a vast scope of storage and bunding products available in the Enviro Gold range to suit most applications. Flammable goods cabinets, Corrosive hazardous goods cabinets, Spill bunding pallets through to spill bunding mats. Custom built products are available in some of the product types. If what you are looking for is not shown please contact us.

## Safety Storage Cabinets & Cans

### Corrosive Storage Cabinets

Each shelf has a polyethylene tray to collect any accidental spills and the cabinets are fire safe. They are manufactured to comply with AS3780 for the safe storage of corrosive substances.

Further information on product data and MSDS are available on our website

# Storage & Bunding

## Blue Powder Paint Finish

Part No	Description	Weight Kg	H x W x D mm
AU25452B	250 Litre, 3 Shelves, 2 Doors, 9 x 20 Litre Drums	143.8	1760 x 1100 x 465
AU25302B	160 Litre, 2 Shelves, 2 Doors, 6 x 20 Litre Drums	109.8	1230 x 1100 x 465

AU25712B	60 Litre, 2 Shelves, 1 Door	59.0	1005 x 595 x 465
AU25714B	30 Litre, 2 Shelves, 1 Door	45.0	800 x 595 x 465

## Blue Polyethylene Construction

Part No	Description	Weight Kg	H x W x D mm
24040	15 Litre, 1 Door	14.0	500 x 365 x 415
24160	30 Litre, 2 Shelves, 2 Doors	59.0	890 x 920 x 565

Further information on product data and MSDS are available on our website

## Flammable Storage Cabinets

- Fully welded construction
- 1.2mm Steel
- Double wall
- 40mm Thermal barrier
- Dual vents with built in flash arrestors
- Leakproof fully welded 150mm deep containment sump
- Adjustable shelves with built in troughs to contain spills
- Fire tested
- FM approved exceeds AS1940 compliance

## Drum Cabinets, Yellow Powder Paint Finish

Part No	Description	Weight Kg	H x W x D mm
AU25662	207 Litre Horizontal Drum, 2 Doors	168.3	1385 x 765 x 1225
AU25701	207 Litre Vertical Drum, 2 Doors with Rollers	192.8	1760 x 870 x 870
AU25701W	207 Litre Vertical Drum, 2 Doors for Waste Products	170.0	1760 x 870 x 870

AU25452	250 Litre, 3 Shelves, 2 Doors, 9 x 20 Litre Drums	142.0	1760 x 1100 x 465
AU25602	250 Litre, 3 Shelves, 2 Doors, 12 x 20 Litre Drums	177.8	1760 x 870 x 870

## Tray Top or Under Bench Cabinet, Yellow Powder Paint Finish

Part No	Description	Weight Kg	H x W x D mm
AU25748	100 Litre, 2 Shelves, 2 Doors	86.1	800 x 920 x 565

## Compact Storage Cabinet - Yellow Powder Paint Finish

Part No	Description	Weight Kg	H x W x D mm
AU25712	60 Litre, 2 Shelves, 1 Door	59.0	1005 x 595 x 465
AU25714	30 Litre, 2 Shelves, 1 Door	45.0	800 x 595 x 465

Further information on product data and MSDS are available on our website

## Safety Storage Cans

- Fire protective in plant storage of flammables
- Heavy duty terne plate with double seamed construction
- All models have built in flash arrestors to eliminate the risk from flashback causing explosion
- Various sizes available

## Safety Cans – Type 1 (Storage Can)

Part No	Description	Weight Kg	Capacity
10001	Safety Can	1.0	0.5 Litres
10101	Safety Can	1.0	0.9 Litres
10201	Safety Can	1.0	1.9 Litres
10301	Safety Can	2.0	3.8 Litres
10501	Safety Can	2.0	7.6 Litres
10555	Safety Can	3.0	10 Litres
10701	Safety Can	3.0	11 Litres
10801	Safety Can	3.0	19 Litres
10802	Safety Can with Polyethylene Funnel	3.0	19 Litres

## Hose Attachments for Type 1 (Storage Can) Safety Cans

Part No	Description	Weight Kg	Capacity
11089	Galvanised Hose 350mm x 25mm	0.5	n/a
11202Y	Pour Funnel (Metal Cans) Polyethylene	0.5	n/a

Further information on product data and MSDS are available on our website

## Non-metallic Safety Cans – Type 1 (Storage Can)

The range of Non-metallic Safety Cans have the same features as the steel cans except that they are made from high-density Polyethylene suitable for safe storage of most corrosive chemicals.

Part No	Description	Weight Kg	Capacity
14045	Oval Plated Steel Trim	1.4	1.9 Litres
14065	Oval Stainless Steel Trim	1.4	1.9 Litres
14140	Oval Plated Steel Trim	1.4	3.8 Litres
14160	Oval Stainless Steel Trim	1.4	3.8 Litres
14251	Round Plated Steel Trim	2.3	10 Litres
14261	Round Stainless Steel Trim	2.3	10 Litres
14501	Round Plated Steel Trim	4.1	19 Litres
14561	Round Stainless Steel Trim	4.1	19 Litres

## Safety Cans – Type 11 (Dispensing Can with Flexible Hose)

Part No	Description	Weight Kg	Capacity
10327	Safety Can – 19mm Hose	3.2	3.8 Litres
10527	Safety Can – 19mm Hose	3.6	7.6 Litres
10721	Safety Can – 25mm Hose	3.6	11 Litres
10728	Safety Can – 19mm Hose	3.6	11 Litres
10821	Safety Can – 25mm Hose	4.1	19 Litres
10828	Safety Can – 19mm Hose	4.1	19 Litres

Further information on product data and MSDS are available on our website

## Safety Cans/Transport Cans – Type 11

Part No	Description	Weight Kg	Capacity
10540	Safety Can – 25mm Hose	5.4	10 Litres
10541	Safety Can – 19mm Hose	5.4	10 Litres
10840	Safety Can – 25mm Hose	6.8	19 Litres
10841	Safety Can – 19mm Hose	6.8	19 Litres

## Drain Seals

### Drain Seal

Enviro Gold drain seals are used to prevent spills from entering drains, grates or manholes. They are resistant to water, oil and most aggressive chemicals.

**1200mm x 1200mm x 5mm**  
DS1200

**600mm x 600mm x 5mm**  
DS600

**900mm x 900mm x 5mm**  
DS900

**450mm x 450mm x 5mm**  
DS450

Further information on product data and MSDS are available on our website

## Bunds (Spill Containment Pallets)

### IBC Bund

IBC Bund commonly known as spill containment pallets allow you to store one Palecon (1000L) on this bund to capture leaks, drips and spills.

- Made of 40% recycled polyethylene, it provides compliance to environmental regulations and helps meet green initiatives.
- Ideal for indoor use.
- Corrosion resistant.
- Leak tight sump reliably contains big spills.
- Sturdy internal pillar supports remove for easy sump cleaning.
- Forklift pockets front and back make it simple to reposition empty pallet.
- Dirt hiding black body keeps indoor facilities looking clean.

**Sump Capacity:** 1408 litre

**Outside Dimensions:** 139.7cm (L) x 139.7cm (W) x 95.2cm (H)

**Ship Weight:** 162kg

**Load Bearing Capacity:** 4082kg

Further information on product data and MSDS are available on our website

## 4 Drum Bund

4 Drum Bund commonly known as spill containment pallets stores 4 x 205 litre drums to capture leaks, drips and spills.

- Stores 4 x 205 litre drums
- Able to be lifted by a forklift from both sides, even when loaded
- Big sump captures spills and meets UFC and EPA spill containment regulations
- Seamless construction eliminates leaks
- Low profile design is ideal for storing, collecting and dispensing
- 100% polyethylene impervious to most chemicals including acids and corrosives
- Multiple structural supports handle heavy loads
- Self-locating, rugged polyethylene grates eliminate the chance of 'ride up' and remove easily for convenient cleaning

**Sump Capacity:** 250 litre

**Outside Dimensions:** 125cm (W) x 125cm (D) x 26cm (H)

**Ship Weight:** 46kg

**Load Bearing Capacity:** 2268kg

## 2 Drum Bund

2 Drum Bund commonly known as spill containment pallets stores 2 x 205 litre drums to capture leaks, drips and spills.

- Stores 2 x 205 litre drums
- Able to be lifted by a forklift from both sides, even when loaded
- Big sump captures spills and meets UFC and EPA spill containment regulations
- Seamless construction eliminates leaks
- Low profile design is ideal for storing, collecting and dispensing
- 100% polyethylene impervious to most chemicals including acids and corrosives
- Multiple structural supports handle heavy loads
- Self-locating, rugged polyethylene grates eliminate the chance of 'ride up' and remove easily for convenient cleaning

**Sump Capacity:** 250 litre

**Outside Dimensions:** 125cm (W) x 64cm (D) x 39cm (H)

**Ship Weight:** 32kg

**Load Bearing Capacity:** 1134kg

Further information on product data and MSDS are available on our website

## Spill Bund Liners

Spill Bund Liners provide spill containment in applications where potentially hazardous chemicals / liquids are being stored.

- Flexible side walls for delivery of liquid storage drums
- Easy to store
- Chemically resistant and UV stable polymer coated fabric
- Lightweight
- Easy to clean
- Available in various sizes
- Custom made sizes available

## Marine Booms

We can supply various styles and sizes of Marine Booms, please contact us with your specifications.

Some types of Marine Booms available:

### Oil Absorbent Booms

Whether the spill is directly on the water or has occurred on land and finds its way there, fast response with the correct equipment is essential.

### Sweep, Mops & Bilge Socks

Are ideal for recovery of oils and fuels floating on the water surface in bilges, oil interceptor pits and other water bodies.

### Oil Containment Booms

Are a non absorbent barrier designed to float and trap oil on the water surface.

### Fence Booms

Are a non absorbent, impervious, floating-like structure for containing oil spills on the water surface.

**Further information on product data and MSDS are available on our website**

## Curtain Booms

Are non absorbent, impervious, floating structures with a large circular foam filled chamber above the water and a weighted continuous skirt below the water.

## Cube Booms

Are non absorbent, impervious, floating booms for permanent deployment in all water and weather conditions including rough, open water.

## Tidal Booms

Protect beaches, mudflats and shorelines from oil containment and are ideal for high tidal movements or shallow waters.

## Mini Air Booms

Are low cost, inflatable booms that can be easily stored, fast to deploy and perfect for use in calm or sheltered waters.

## Silt Booms

Are ideal for use in dredging, excavation and piling operations. They trap and contain sediment and silt, preventing it from contaminating other parts of the waterway.
